Overview of
the Center for Career Development
Kim Betz
Executive Director

Satomi Chudasama
Senior Associate Director, Student Engagement
Vision
All students feel prepared to forge their own unique paths in which their values, interests and work align.

Mission
To empower students to develop the insights, experience and connections to pursue personally meaningful careers throughout their lives.
Take a Poll!

According to the U.S. Department of Labor, how many occupational titles are there in the U.S.?
923 in O*Net
How would you narrow down career possibilities?
Learning Framework

**Participate** in experiential opportunities and conversations with alumni and employers to begin to build a professional network and clarity about your goals.

**Engage**

**Evaluate**

**Clarify** your values, skills and strengths to help you begin to identify opportunities that interest you.

**Implement**

**Search** and prepare to effectively apply for internships, jobs and graduate/professional school programs.
The Center for Career Development is not where you go when you feel you have your future figured out. It's where to go to get started figuring it out.
First-Year Guide

The Center for Career Development is not where you go when you feel you have your future figured out. It’s where you go to get started figuring it out.

Career development is an ongoing, evolving process that is unique to each person. This guide features tips, resources, and events you should explore as a Princeton student to help you better understand your interests and possibilities you can pursue.
